STEEL SCULPTURE
GOING UP IN UM OVAL

MISSOULA--

Erection of a steel sculpture in the oval at the University of Montana is scheduled to take place sometime Tuesday (July 14).

The sculpture, which resembles a teepee burner spouting curls of smoke, was designed by John Vichorek, a UM graduate art assistant from Florence. The art object is 13 feet wide and 12 feet high.

Wally Roberts, architectural draftsman for the UM Physical Plant, said no definite time has been set for erection of the sculpture because several pre-installation steps must be completed beforehand. He said work crews would try to have the sculpture up sometime Tuesday morning.
